

Project #3

The Nature and Role of Government

You are to create a 20-slide keynote presentation in which you examine the following matters:

- **What is government?**
- **How has government been a force for good?**
- **How has government been a force for evil?**
- **WHO is the government?**
- **What are the three major branches of government?**
- **What is the state (make sure you consult your notes for this)?**
- **Explain the concept of sovereignty**
- **Explain the theories of the origins of the state, especially force theory, evolutionary theory, and social compact theory**

Use both TEXT and IMAGES.

When you can, use examples from real life, particularly IMAGES.
